🎓 Education

Gymnasieingenjör — 2019 – 2020
NTI Gymnasiet Skövde

Gymnasieingenjörsprogrammet (TE4) is an extension year to the technology program. During one year, you immerse yourself in software development, run your own projects and have a 10-week internship. Then you graduate as a certified upper secondary school engineer.

The technology program — 2016 – 2019
Rudbecksgymnasiet, Tidaholm

The focus is on computer communication in information, communication and media technology. You get to learn programming and how to make a modern website that is dynamic and interactive and read the courses web development and web server programming.

💼 Work experience

Internship - Software developer — 2020/02/17 – 2020/04/30
Combitech AB, Skövde

10 week internship in a scrum team with a full-stack project. Worked a lot with Python and JavaScript, as well as PostgreSQL. In addition to the development of the application, I also wrote several different documents, user manual, installation guide and overall documentation of the application.

Kitchen assistant — 2017/06/09 – 2017/06/30
Ekedalensskola, Tidaholms kommun

Summer job as a kitchen assistant.

Summer worker — 2016/06/19 – 2016/06/30
Traffic office, Tidaholms kommun

Summer job in Waste Management, Asphalt Laying and plumbing.

Electrician — 2015/10/05 – 2015/10/09
Labbås El AB, Tidaholm

Internship as an Electrician.

✳ Project

Cambridge English, Proficient user C1 — 2019

Cambridge English Qualifications are internationally accepted diplomas in English. In Sweden, the examinations are conducted by Folkuniversitetet in close collaboration with the unit Cambridge Assessment English at the University of Cambridge.

Matematik – specialisering, Linjär algebra — 2016 - 2019

Mathematics - specialization is a course in high school that prepares students for university studies in mathematics.
